CONFERENCE
ON **DATA ENGINEERING**

ICDE 2011: 27th International Conference on Data Engineering

April 11 - 16, 2011 in Hannover, Germany. Sponsored by the IEEE Computer Society

The annual ICDE conference addresses research issues in designing, building, managing, and evaluating advanced data-intensive systems and applications. It is a leading forum for researchers, practitioners, developers, and users to explore cutting-edge ideas and to exchange techniques, tools, and experiences. We invite the submission of original research contributions and industrial papers, as well as proposals for workshops, panels, tutorials, and demonstrations.

ICDE 2011 will be held in Hannover, Germany. Hannover is the capital of the federal state of Lower Saxony (Niedersachsen), Germany. Hannover is known as a trade fair city (e.g. CeBIT) but also for their Royal Gardens of Herrenhausen and many other places of interest.

Submission Guidelines: All submissions must be prepared in the IEEE camera-ready format. Research and industrial paper submissions are limited to 12 pages. A paper submitted to ICDE 2011 cannot be under review for any other conference or journal during the entire time it is considered for ICDE 2011, and it must be substantially different from any previously published work (other than posters or short papers with a length of up to 4 pages when converted into the IEEE format).

Submissions to the industrial program may be paper-length or extended abstracts of 1-2 pages. They should present interesting aspects of commercial products and services and lessons learned from practical usage, not research results or prototypes from industry labs. Submissions are reviewed in a single-blind manner. Authors of research papers will have an opportunity to give concise feedback on preliminary reviews within a one-week time window.

All accepted papers will appear in the proceedings. The online proceedings may be published as early as February 1, 2011. Accepted papers will be either long (12 pages) for complete technical work or short (4 pages) for innovative ideas. The best papers will be selected for extended versions to be published in the IEEE Transactions on Knowledge and Data Engineering. IEEE reserves the right to exclude a paper from distribution after the conference (e.g., removal from IEEE Xplore) if the authors do not attend the conference to present their paper.

Important Dates:

Abstract due: July 16, 2010

Full paper submissions due: July 23, 2010

Author feedback time window: Sep. 24 - Oct 1, 2010

Notification of authors: Oct. 30, 2010

Final versions due: Nov. 30, 2010

Conference date: April 11-16, 2011

CONFERENCE
ON **DATA ENGINEERING**

ICDE 2011: 27th International Conference on Data Engineering

April 11 - 16, 2011 in Hannover, Germany. Sponsored by the IEEE Computer Society

General Chairs

Alfons Kemper (TU München, Germany)
Wolfgang Nejdl (Leibniz Universität Hannover, Germany)

Local Organization and Financial Chair

Thomas Risse (L3S Research Center, Germany)

Program Committee Chairs

Serge Abiteboul (INRIA, France)
Christoph Koch (Cornell University, USA)
Kian-Lee Tan (National University of Singapore)

Program Committee Area Vice Chairs

Karl Aberer (EPFL, Switzerland):
Transaction and workflow management

Walid Aref (Purdue University, USA): Scientific Data

Magdalena Balazinska (University of Washington, USA):
Streams and Sensor Networks

Angela Bonifati (ICAR-CNR, Italy): Semistructured
Data, XML and Web Data Management

Chee Yong Chan (National University of Singapore):
Query Processing and Optimization

Brian Cooper (Yahoo! Research, USA):
Web Applications and cloud computing

Bin Cui (Beijing University, China):
Indexing and Storage

Amol Deshpande (University of Maryland, USA):
Text, uncertain and probabilistic data

Alin Dobra (University of Florida, USA):
Data warehousing, OLAP and data grids

Johannes Gehrke (Cornell University, USA):
Privacy and Security

Zack Ives (U Penn): Data Integration, metadata
management and Interoperability

Daniel A. Keim (University of Konstanz, Germany):
Database user interfaces and information visualization

Ioana Manolescu (INRIA Saclay, France):
Systems, Experiments, Applications

Amélie Marian (Rutgers University, USA):
Social Networks and Personal Information

Tamer Ozsu (University of Waterloo, Canada): Distri-
buted, Peer-to-Peer and Mobile Systems

Yufei Tao (Chinese University of Hong Kong, China):
Temporal, Spatial and Multimedia Data

Michalis Vazirgiannis (University of Athens, Greece):
Data Mining and knowledge discovery

Other chairs:

Industrial Program Chairs

Surajit Chaudhuri (Microsoft, USA)
Volker Markl (TU Berlin, Germany)

Tutorial/Seminars Chair

Nikos Mamoulis (University of Hong Kong)
Pierre Senellart (Télécom ParisTech, France)

Workshop Chair

Kevin S. Beyer (IBM, USA)
Sunil Prabhakar (Purdue University, USA)

Panel Chair

Patrick Valduriez (INRIA, France)

Poster Chairs

Georgia Koutrika (IBM Almaden Research Center, USA)
Heiko Schuldt (University Basel, Switzerland)

Demo Chairs

Kevin C. Chang (University of Illinois, USA)
Dean Jacobs (SAP, Germany)

Proceedings Chairs

Klemens Böhm (University Karlsruhe, Germany)

Publicity Chair

Wolf-Tilo Balke (University Braunschweig, Germany)
